Center for Neuroscience
UC Davis

The Healthy Aging Brain
Brain Awareness Week Neuroscience Public Seminars

John Morrison, Ph.D.
Life and Death of Neurons in the Aging Brain

Charan Ranganath, Ph.D.
How Memory Works and Can You Make It Better

Gregg Recanzone, Ph.D.
Age-Related Hearing Deficits: Why is it that the older I get, the harder it is for me to hear what people are saying?

Leah Krubitzer, Ph.D.
Brain Changes Within and Across Lifetimes

Interactive and Hands-On Fun for All Ages
Meet UC Davis scientists and learn about the latest research breakthroughs in neurodegenerative brain disorders, including Alzheimer's disease, multiple sclerosis, Fragile-X associated tremor/ataxia syndrome, and Huntington's disease. Plus, see and touch real brain specimens, examine neurons under a microscope, judge a poster competition and more!
