NEUROFEST

Brain Rewiring in Health and Disease

A Brain Awareness Week Public Seminars
and Interactive Experience

Interactive and Hands-On Fun for All Ages

Meet UC Davis scientists and learn about the latest research breakthroughs in neurological diseases and disorders. Plus, see and touch real brain specimens at the Brain Zoo; marvel at the intricate morphology of nerve cells; purify real DNA; stimulate mind control, judge a poster competition and more!

SATURDAY
March
10

1:00 p.m. to 5 p.m.

**Walter A. Buehler
Alumni Center AGR Room
530 Alumni Lane, Davis, CA**

**RSVP by March 1 at
neuroscience.ucdavis.edu**

Karen Zito, Ph.D.

How the Brain Changes During
Learning and In Disease

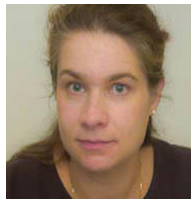

Gene Gurkoff, Ph.D.

The Brain is Like a Symphony;
What Happens When the
Conductor Goes Missing?

Susan Rivera, Ph.D.

Brain and Cognitive
Development in Typically
and Atypically Developing Children

Karen Moxon, Ph.D.

Brain Plasticity After Spinal
Cord Injury
